

# VRAKAS/ BLUM COMPUTER CONSULTING, INC.

## CLIENT TESTIMONIALS

---

“I like Vrakas/Blum’s quick response and the close contact they keep with us. Their turnaround time, remote support and personal communication are all benefits to our company. Their team is very mindful of the issues we face, and they don’t jump to conclusions about our needs. They like to make sure the programs and software are working right before suggesting an upgrade.

I would highly recommend Vrakas/Blum to anyone. Their group is very experienced and they are all friendly –people I can trust. They almost make us feel like they are part of our company in many ways.”

**Oshkosh, Wisconsin**

“We’ve been with Vrakas/Blum Computer Consulting, Inc. since we began using the MAS 200 system. Over the years, they have given us a lot of support. They come to us to train our individuals. They have an extensive knowledge of the software system, and given the uniqueness of our industry, they’ve helped to customize everything to meet our needs.

Our accounting system is our lifeline – our business is dependent on it – and Vrakas/Blum knows how to make it work for us. When we’ve had a problem, no matter how simple, their team has gotten us through it in a timely manner. They are professional and always respectful. They are all personable and understanding -a very good group of people. I would be their advocate anytime.”

**Volo, Illinois**

“As an industrial rubber products distributor in Greater Milwaukee, we look to Vrakas/Blum Computer Consulting for assistance with all of our company’s computer and IT support, and software upgrades. Their consultants are true experts in their field, which gives us confidence and comfort when our projects are in their hands. They are always courteous and responsive, and they have the knowledge to help us with any computer or IT related issues we may have.

Our time working with Vrakas/Blum Computer Consulting has been nothing but pleasant and positive experiences. Their team has a deep understanding of how our business operates, allowing them to quickly and accurately determine the solutions we need. They also provide seamless implementations to keep our business running at full speed.”

**Karla**  
**Menomonee Falls, Wisconsin**

“When we began working with Vrakas/Blum Computer Consulting, we looked to their team for assistance with our company’s JobOps and SAGE MAS 200 software upgrades and support. We could see right away that their consultants were extremely knowledgeable and had extensive experience with the products they sold. They were also helpful, friendly and always had positive attitudes. We can still see those same traits and qualities in their team today.

Another great benefit of working with Vrakas/Blum Computer Consulting is their receptiveness to client suggestions and responsiveness to client needs. From the time we began working with the firm, our company requested the development of some type of barcode scanner to help our warehouse operate more smoothly and efficiently. Vrakas/Blum Computer Consulting took our request to heart and introduced the VBScan barcode scanning solution within one year.

We could not be happier with our decision to engage Vrakas/Blum Computer Consulting, and we consider their team a part of our team.”

**Marilyn**  
**Dixon, Illinois**

“When our company’s computer consultant announced they were leaving their previous position to work for Vrakas/Blum Computer Consulting, we didn’t know what to expect. We enjoyed working with our consultant and wanted to continue a relationship with them, but we were unfamiliar with Vrakas/Blum Computer Consulting and how they operated. Fortunately, we decided to transition to the firm as well. Looking back, our company can now say we made one of our smartest business decisions yet.

Vrakas/Blum Computer Consulting assists with all of our company’s Sage BusinessWorks software needs. Their professionals are efficient, thorough and extremely knowledgeable. Our organization is thrilled to have found a firm we can trust in Vrakas/Blum Computer Consulting, and we are excited for the opportunity to work with them for years to come.”

**COMPUTER CONSULTING, INC.**

“We began working with Vrakas/Blum Computer Consulting when our consultant joined the firm. They now assist with our company’s MAS 90 system and provide other advice and assistance whenever technology issues arise. Their team is extremely knowledgeable and if they do not know the answers, we are confident they will find them. They also convinced us to transition to the web for industry news and updates important to our company, which has been an easy and beneficial move.

Our relationship with the professionals at Vrakas/Blum Computer Consulting is a great one. They are enjoyable to work with and are always responsive to our needs. We look forward working with them in the years ahead.”
