# Dilemma

**Staff overwhelmed! Employees putting in a ton of overtime and are overworked as well has having no ability to scale up.**

# Solution

### EDI Integration to Sage 100

1. Inbound orders field mapped automatically

2. Tracking numbers imported

3. Picking sheet exceptions conditionally formatted

4. ASN's automatically generated

**In conclusion, with the integration to Sage 100 we were able to add a new line of business that was five times larger, no extra employees needed and summers became pleasant for employees.**
