

Effectively Plan, Prepare, and Maintain CMMC Compliance

Achieve CMMC Readiness and Beyond

Helping organizations navigate the complexities of CMMC. Security solutions that enable your organization to prepare, achieve, and maintain compliance with ease.

CMMC Readiness Assessment

Map out your current cybersecurity programs and procedures while identifying security gaps against CMMC compliance requirements.

- Get a detailed understanding of how close you are to meeting the requirements of your targeted CMMC level.
- Gain a system security plan to understand your IT security roadmap.
- Pinpoint risks areas for a remediation plan.

CMMC Post Assessment Remediation

A structured approach to mitigate security gaps. Implement the right security solutions to meet the compliance needs in preparation for CMMC.

- Cybersecurity technology implementation.
- Formalized compliance procedures and documentation
- Security Technology Implementation, Management & Support

Cybersecurity Managed Support

Support and Monitoring to ensure you maintain your CMMC compliance and stay up to date on cybersecurity requirements.

- Ongoing security monitoring of threat detection, email protection, DNS filtering, etc.
- Vulnerability and compliance reporting.
- Audit review and reporting for confirmation that security baselines are maintained.

The Value of CMMC Services with CompuData

Cyber Experience & Expertise

CompuData is a certified Registered Provider Organization (RPO) with the CMMC-AB, employing Registered Practitioners™ (RPs) to ensure our clients receive the most up to date CMMC knowledge and expertise. With years of experience in providing cybersecurity assessment services combined with CMMC expertise, we deliver to our clients the knowledge to provide successful cybersecurity programs, processes, and practices..

Be Fully Prepared for the Official CMMC Certification

From taking the first steps of performing a CMMC Readiness Assessment to ongoing security support; ensure your organization is meeting CMMC compliance. Registered Practitioners will help with a CMMC Readiness Assessment to identify gaps, Post Assessment Remediation, and documentation of processes and procedures to pass the CMMC certification.

CMMC Maintenance for the Future

Develop a security roadmap for your organization to remain constantly at the forefront of security.

Take a Strategic Approach

Leverage a specialized virtual CIO that compliments your existing leadership team to provide CMMC planning and assists in strategic decision making beyond your CMMC Certification.

Start establishing cybersecurity ‘maturity’ today so you are prepared for the certification. Don’t know where to start? Begin your patch to protection that meets compliance standards with a CMMC Readiness Assessment! Contact us today!

ENSURE YOUR ORGANIZATION IS MEETING CMMC COMPLIANCE

Security Solutions for CMMC

- Application Testing
- Penetration Testing
- Proactive Threat Detection
- Log Data Collection
- Procedure Documentation
- Advanced Email Protection
- Endpoint Detection and Response
- Incident Response & Remediation
- Multi Factor Authentication
- Security Awareness Training
- Vulnerability Scanning

Meeting Compliance Standards
