

Build Business Continuity in the Cloud

# A Managed Cloud You Can Rely On

Strengthen your infrastructure with a focus on the cloud. There's no one cloud fits all – strategize with our tech experts on a cloud solution that fits your organizational needs.

## CompuData Private Cloud

Access all business resources remotely in a dedicated cloud with a 99.99% uptime guarantee.

- Bi-coastal data centers, full disaster recovery, & unmatched backups and data replication.
- Private dedicated firewalls for added security.
- A compliant and regulated environment: DFARS, GDPR, ISO/IEC, NIST, PCI, and SOC 2

## Microsoft Azure Public Cloud

Maximize your usage and streamline utilization with managed public cloud services.

- Comprehensive services to help your organization effectively design, implement, and manage your cloud environment.
- Support for ongoing architecture, security and 24x7x365 operations.
- Gain cost optimizations by partnering with CompuData, a Microsoft Azure partner.

## Hybrid Cloud Solutions

Optimize on the agility of a hybrid cloud and delegate resources based off specific needs.

- Tap into private, public and on-premise to support security and compliance & ensure the availability of business-critical legacy systems.
- Tie together data and workloads under common management.
- Cloud experts to architect and strategize an environment for your resource requirements.

# The Value of a Managed Cloud with CompuData

## 24/7 Cloud Access – Without Worry

Access your resources anytime, from anywhere and on which every device you choose. The cloud ensures your organization is up and running in real-time data. We will take care of incident monitoring and endpoint controls to ensure you have a fully secure environment.

## Scalable Solution

Pay only for the storage space you need today. As your business grows, your cloud environment will scale and grow with your needs. Whether you are in the private cloud or a public cloud, CompuData will manage your environment to ensure you are maximizing your resources.

## Dedicated Support Team

Access our team of dedicated IT solution specialists who are ready to assist you. From general updates to maintenance, training, reporting and more; our IT Support team will deliver a personal experience every time.

## Predictable IT Costs

Avoid unpredictable IT costs such as server upgrades, unplanned maintenance, and costly downtimes. Reduce infrastructure cost and headaches with fees from maintenance, upgrades and support.

## Total Peace of Mind

Get the peace of mind to run your business with automatic data backups, data replication, and disaster recovery to ensure your business is up and running with real-time data in the event of an emergency backed by a 99% uptime guarantee.

**Join over 5000 cloud users with CompuData and create a flexible, scalable, and customizable cloud environment to meet your organization's needs. Contact us today to move your business to a secure cloud you can rely on.**
