

# RateLinx

Simple. Scalable. Powerful.

Founded in 2002, RateLinx was built on a single idea: there's a **better** way to manage freight.

20M+ transactions processed daily

25K+ global carrier integrations

Rapid deployment in as little as 30 days

Globally Certified UPS & FedEx

350+ Customers

RateLinx provides supply chain software and data services that give businesses visibility into their transportation networks. With powerful technology, automation, and analytics, RateLinx helps companies optimize shipping, reduce freight spend, and make smarter logistics decisions.

## Why choose RateLinx?

End-to-end transportation visibility

Reduce freight costs & eliminate overbilling

Automate shipping, auditing, & reporting

Integrate with ERP, WMS, & business systems

Turn transportation data into actionable insights

Trusted by hundreds of global shippers

## Key Benefits:

### 1. COMPLETE TRANSPORTATION VISIBILITY

Gain full insight into parcel, LTL, truckload, and international shipments across your entire supply chain.

### 2. REDUCE FREIGHT SPEND

Advanced analytics, automated auditing, and optimized shipping decisions help companies identify cost-saving opportunities and eliminate overcharges.

### 3. POWERFUL SUPPLY CHAIN TECHNOLOGY

RateLinx solutions automate transportation planning, execution, auditing, and reporting to streamline logistics operations.

### 4. DATA-DRIVEN DECISION MAKING

Access real-time reporting, dashboards, and analytics that reveal trends and empower smarter logistics strategies

### 5. SEAMLESS SYSTEM INTEGRATIONS

Connect with ERP, WMS, OMS, and other business systems to ensure accurate data flow and maximize operational efficiency

### 6. SOLUTIONS THAT SCALE

RateLinx technology grows with your business, supporting expanding networks, carriers, locations, and shipping complexity.

### 7. EXPERT SUPPORT & PARTNERSHIP

Work with experienced logistics and technology experts dedicated to helping you optimize your supply chain performance.
